We are the Future Homemakers of America
 We face the future with warm courage
 And high hope.

For we have the clear consciousness of seeking
 Old and precious values.
 For we are the builders of homes,
 Homes for America's future.
 Homes where living will be the expression of everything
 That is good and fair.
 Homes where truth and love and security and faith
 Will be realities, not dreams.

We are the Future Homemakers of America
 We face the future with warm courage
 And high hope.

45,000 Good Reasons for Staying in School

By Guy B. Vick
Personnel Manager
Virginia Metal Products, Inc.

Today, the average high school graduate will earn \$45,000 more in his lifetime than the average non-graduate . . . by 1975, this figure may approach \$70,000.

Here are some facts to think about: Two-thirds of all Americans who are unemployed never attended high school There are hundreds of thousands of jobs not filled, due to the fact that qualified persons are not available to fill them Added to this, over a million new jobs could be created if there were qualified people to go into them By 1970, non-skilled jobs will amount for only 5% of the total labor market.

For your good - and to the good of your nation - get your high school diploma!
